

Prescriptive Rebate Program

Valid Jan. 1, 2026 - Dec. 31, 2026

Rebates listed below apply to installations completed between January 1, 2026, and December 31, 2026. If a product is not listed below, it may still be eligible for a custom rebate. Full program requirements are listed on the rebate applications that will be available at PeoplesGasDelivery.com/Savings and NorthShoreGasDelivery.com/Savings effective January 1, 2026.

Project number	Product/efficiency requirement	Prescriptive rebate	Small and Midsize Business Partner rebate***	Unit
Steam Trap Repairs, Replacements and Testing				
1	Steam Trap Testing	\$25 Bus.	\$25	Steam Trap Tested
2	Industrial/Process and Year-Round Space Heating Steam Trap Repair/Replacement	\$300	\$325	Steam Trap
3	Dry Cleaner/Laundromat Steam Trap Repair/Replacement	\$150	\$175	Steam Trap
4	Space Heating Steam Trap Repair/Replacement	\$100	\$150	Steam Trap
5	Untested Steam Trap Repair/Replacement	\$125 Bus.	\$150	Steam Trap
6	Steam Trap Monitoring System — Space Heating Trap	\$100	\$150	Steam Trap
7	Steam Trap Monitoring System — Dry Cleaning and Laundromat	\$200	\$250	Steam Trap
8	Steam Trap Monitoring System — Process Trap	\$300	\$350	Steam Trap
Pipe Insulation for Steam Heating Boiler Systems				
9	Steam — Small Pipe Diameter (1 to 2 inches)	\$3	\$10	Linear Foot
10	Steam — Medium Pipe Diameter (2.1 to 5 inches)	\$4.80	\$12	Linear Foot
11	Steam — Large Pipe Diameter (5.1 to 8 inches)	\$6.60	\$14	Linear Foot
12	Steam — X-Large Pipe Diameter (> 8 inches)	\$12	\$18	Linear Foot
13	Small Pipe Steam Fittings — Nominal Pipe Diameter (1 to 2 Inches)	\$3.60	\$10	Fitting
14	Medium Pipe Steam Fittings — Pipe Diameter (2.1 to 5 inches)	\$6	\$15	Fitting
15	Large Pipe Steam Fittings — Pipe Diameter (5.1 to 8 inches)	\$8.40	\$20	Fitting
16	X-Large Pipe Steam Fittings — Pipe Diameter (> 8 inches)	\$16.80	\$36	Fitting
17	Small Pipe Steam Valves — Nominal Pipe Diameter (1 to 2 Inches)	\$9.60	\$15	Valve
18	Medium Pipe Steam Valves — Pipe Diameter (2.1 to 5 inches)	\$15.60	\$20	Valve
19	Large Pipe Steam Valves — Pipe Diameter (5.1 to 8 inches)	\$24	\$30	Valve
20	X-Large Pipe Steam Valves — Pipe Diameter (> 8 inches)	\$33.60	\$40	Valve
Pipe Insulation for Hydronic and Domestic Boiler Systems				
21	Hydronic Water — Small Pipe Diameter (1 to 2 inches)	\$1.20	\$10	Linear Foot
22	Hydronic Water — Medium Pipe Diameter (2.1 to 4 inches)	\$1.50	\$12	Linear Foot
23	Hydronic Water — Large Pipe Diameter (> 4 inches)	\$1.80	\$14	Linear Foot
24	Domestic Hot Water — Small Pipe Diameter (< 1.25 inches)	\$1.20	\$8	Linear Foot
25	Domestic Hot Water — Medium Pipe Diameter (1.26 to 2 inches)	\$1.50	\$10	Linear Foot
26	Domestic Hot Water — Large Pipe Diameter (> 2 inches)	\$1.80	\$12	Linear Foot
Tank Insulation for Hydronic and Domestic Boiler Systems				
27	Domestic Hot Water Storage Tank Insulation	\$5.40	\$6.50	Square Foot
28	Condensate Tank Insulation	\$9.60	\$9.60	Square Foot

Project number	Product/efficiency requirement	Prescriptive rebate	Small and Midsize Business Partner rebate***	Unit
Process Pipe Insulation for Dry Cleaning Facilities				
29	Small Pipe Diameter (.5 to 2 inches)	\$3.60	\$4	Linear Foot
Removable Steam Trap Jackets for Dry Cleaning Facilities				
30	Steam Trap Jacket Insulation	\$9.60	\$9	Steam Trap
Boilers, Boiler Controls, Tune-Ups, Chemical Descaling and Stack Economizers				
31	Space Heating Hot Water Boiler; ≥ 300 MBH Input and ≤ 2,500 MBH and Rated Thermal Efficiency of 88% or greater	\$1.50	\$1.50	MBH* Input
32	Space Heating Hot Water Boiler; > 2,500 MBH Input and Rated Fuel-to-Water Efficiency of 88% or greater	\$1.50	\$1.50	MBH* Input
33	Space Heating Hot Water Boiler; < 300 MBH Input and Rated Thermal Efficiency of 88% or greater	\$1.50	\$1.50	MBH* Input
34	Space Heating Steam Boiler; > 300 MBH and < 2,500 MBH Input, and Rated Thermal Efficiency of 82% or greater	\$1.20	\$1.25	MBH* Input
35	Space Heating Steam Boiler; ≥ 2,500 MBH Input and Rated Thermal Efficiency of 82% or greater	\$1.20	\$1.25	MBH* Input
36	Central Steam Dual-Pipe Steam Boiler Averaging Controls	\$50	\$100	Living Unit
37	Central Steam Single-Pipe Steam Boiler Averaging Controls	\$50	\$100	Living Unit
38	Space Heating Hot Water Boiler Cutout and Reset Controls	\$0.60	\$1	MBH* Input
39	Space Heating Boiler Tune-Up	\$0.30	\$0.40	MBH* Input
40	Process Heating Boiler Tune-Up	\$0.50	\$0.60	MBH* Input
41	Business Furnace and Rooftop Unit Tune-Up	\$300	\$400	Per Tune-Up
42	Boiler Chemical Descaling Low Pressure (below 15 psig)	\$0.30	\$0.40	MBH* Input
43	Boiler Chemical Descaling High Pressure (above 15 psig)	\$0.50	\$0.60	MBH* Input
44	Conventional Space Heating Stack Economizer	\$0.48	\$0.50	MBH* Input
45	Condensing Space Heating Stack Economizer	\$0.72	\$0.70	MBH* Input
46	Conventional Economizer (Process)	\$1	\$1.25	MBH* Input
47	Condensing Economizer (Process)	\$1.50	\$1.75	MBH* Input
Burner Controls for Space Heating				
48	Linkageless Controls	\$0.48	\$0.50	MBH* Input
49	O2 Trim	\$0.18	\$0.20	MBH* Input
Shut Off Flue Damper for Space Heating				
50	Shut Off Flue Damper	\$0.15	\$0.20	MBH* Input
Condensate Recovery System				
51	Condensate Recovery System	\$2	\$2.50	MBH* Input
Blowdown Heat Recovery				
52	Blowdown Heat Recovery	\$0.20	\$0.25	MBH* Input
Boiler Turbulators				
53	Boiler Turbulators	\$0.40	\$0.60	MBH* Input
Thermostats				
54	Smart Thermostat	\$50	\$100	Thermostat
55	Programmable Thermostat	\$50	\$50	Thermostat
56	Wireless Pneumatic Thermostat (WPT) Small Building 0-10,000SF	\$0.10	\$0.13	Square Foot
57	Wireless Pneumatic Thermostat (WPT) Medium Building 10,001-300,000 SF	\$0.08	\$0.10	Square Foot
58	Wireless Pneumatic Thermostat (WPT) Large Building 300,001+ SF	\$0.07	\$0.09	Square Foot
Demand-Controlled Ventilation				
59	Space Heating	\$0.10	\$0.12	Square Foot

Project number	Product/efficiency requirement	Prescriptive rebate	Small and Midsize Business Partner rebate***	Unit
Space Heating and Specialty Equipment				
60	Furnace — Common Area and Business: 95% AFUE or greater	\$240	\$375	Furnace
61	Furnace — In Unit: 95% AFUE or greater	\$240	\$275	Furnace
62	Condensing Unit Heaters	\$2.40	\$3	MBH* Input
63	Infrared Heater	\$3.00	\$3	MBH* Input
64	Direct-Fired Heaters	\$1.20	\$2	MBH* Input
65	Dedicated Outside Air System (DOAS) or Make-Up Air Units (MUAS)	\$0.18	\$0.20	CFM* Input
66	Space Heating Energy Recovery Unit	\$0.90	\$1.25	CFM Input
Water-Saving Measures				
67	Pre-Rinse Sprayers — Must have a flow rate of ≤ 1.24 GPM	\$28	\$75	Sprayer
68	Hotel Low Flow Faucet Aerators or Restrictors — Must have flow rate of ≤ 1.5 GPM	\$5	\$6	Restrictor
69	Hotel Low Flow Showerheads or Restrictors — Must have a flow rate of ≤ 2.0 GPM	\$20	\$22	Restrictor
70	Laminar Flow Restrictors - 2.2 GPM — Must replace flow rate of ≤ 2.75 GPM in Healthcare Facilities	\$20	\$22	Restrictor
71	Laminar Flow Restrictors - 1.5 GPM — Must replace flow rate of ≤ 2.2 GPM in Healthcare Facilities	\$25	\$27	Restrictor
72	Laminar Flow Restrictors - 1.0 GPM — Must replace flow rate of ≤ 2.2 GPM in Healthcare Facilities	\$30	\$32	Restrictor
73	Laminar Flow Restrictors - 0.5 GPM — Must replace flow rate of ≤ 2.2 GPM in Healthcare Facilities	\$35	\$37	Restrictor
Natural Gas Water Heaters				
74	Natural Gas Water Heater; < 75 MBH Input and ≥ 0.67 Energy Factor; 30-gallon minimum capacity	\$180	\$175	Water Heater
75	Natural Gas Water Heater; ≥ 75 MBH Input and < 400 MBH Input and ≥ 88% Thermal Efficiency	\$1.20	\$2.25	MBH* Input
76	Central Domestic Gas Water Heater (for Lodging Facilities)	\$3	\$3	MBH* Input
77	Laundromat Water Heater: 88% to 94.9% Thermal Efficiency	\$1.20	\$1.50	MBH* Input
78	Laundromat Water Heater: ≥ 95% Thermal Efficiency	\$1.80	\$2	MBH* Input
79	Tankless Water Heater: >90% Thermal Efficiency	\$1.20	\$1.25	MBH* Input
On-Demand Circulating Hot Water Pump				
80	Dorm Room On-Demand Circulating Hot Water Pump	\$21.60	\$25	Living Unit
81	Hotel/Motel On-Demand Circulating Hot Water Pump	\$8.40	\$10	Guest Room
Ozone Laundry				
82	Ozone Laundry — Hotels/Motels, Fitness centers, and Healthcare (Excluding Hospitals)	\$25	\$35	Lbs. Capacity
83	Ozone Laundry — Laundromats	\$10	\$15	Lbs. Capacity
Modulating Commercial Gas Clothes Dryer Retrofit				
84	Dryer — Coin-Operated Laundromat	\$150	\$200	Per Dryer
85	Dryer — Hotel and Hospital	\$300	\$400	Per Dryer
High-Speed Commercial Washers				
86	High-Speed Washer — Hotel/Motel/Hospital (Minimum of 10 turns per day, Minimum spin speed of 200G)	\$4	\$9	Lbs. Capacity
87	High-Speed Washer — Laundromat (Minimum of 4.5 turns per day, Minimum spin speed of 200G)	\$2.50	\$3	Lbs. Capacity
88	High-Speed Washer-Hotel/Motel/Hospital (Minimum of 10 turns per day, Minimum spin speed of 400G)	\$6	\$10	Lbs. Capacity
89	High-Speed Washer-Laundromat (Minimum of 4.5 turns per day, Minimum spin speed of 400G)	\$3	\$4	Lbs. Capacity

Project number	Product/efficiency requirement	Prescriptive rebate	Small and Midsize Business Partner rebate***	Unit
Dock Door Seals				
90	Dock Door Seals	\$720	\$800	Door Seal
Destratification Fan				
91	Destratification Fan	\$2,000	\$2,500	Fan
Foodservice				
92	Demand-Controlled Ventilation — Commercial Kitchen Exhaust Hoods	\$960	\$900	Exhaust Fan HP
93	Kitchen Exhaust Heat Recovery Grease Trap Filter	\$492	\$450	Filter
94	Convection Oven	\$200	\$300	Cavity
95	Double Rack Oven	\$1,000	\$1,500	Double Oven
96	Fryer	\$400	\$600	Fry Vat
97	Large Conveyor Oven	\$600	\$700	Oven
98	Salamander Broiler	\$200	\$300	Broiler
Low-Temperature Commercial Dishwashers				
99	Under Counter	\$90	\$100	Unit
100	Stationary Single-Tank Door	\$420	\$525	Unit
101	Single-Tank Conveyor	\$420	\$525	Unit
102	Multi-Tank Conveyor	\$480	\$600	Unit
High-Temperature Commercial Dishwashers				
103	Under Counter	\$45	\$75	Unit
104	Stationary Single-Tank Door	\$420	\$525	Unit
105	Multi-Tank Conveyor	\$480	\$600	Unit
Steamers				
106	Steamer 3-Pan	\$600	\$900	Unit
107	Steamer 4-Pan	\$800	\$1,200	Unit
108	Steamer 5-Pan	\$1,000	\$1,500	Unit
109	Steamer 6-Pan or larger	\$1,200	\$1,800	Unit
Combination Ovens				
110	Combination Oven — < 15 Pans	\$150	\$200	Oven
111	Combination Oven — 15-30 Pans	\$350	\$400	Oven
112	Combination Oven — > 30 Pans	\$550	\$600	Oven

*1 MBH = 1,000 Btu/hour = 1kBtu/h

***Must meet program requirements to receive Partner Rebates

Visit PeoplesGasDelivery.com/Savings or NorthShoreGasDelivery.com/Savings for the most current information. Questions? Call **855-849-8928**.

NOTE: Prescriptive rebates are subject to a cap of 50 percent of the project cost. Partner rebates are subject to a cap of 100 percent of the project cost. Rebate amounts are subject to change or terminate without notice at the discretion of Peoples Gas and North Shore Gas.
